(9) Computers; quantum computers; computer hardware and computer software; Computer hardware and computer software for information technology analysis and data management; computer hardware and computer software for application development; computer hardware and computer software for cloud computing; computer hardware and computer software for cognitive computing; computer hardware and computer software for artificial intelligence; computer hardware and computer software for blockchain technology; computer hardware and computer software for quantum computing and quantum programming; computer hardware, namely magnetic band units (data-processing), magnetic tapes, printed circuits, integrated circuits, computer keyboards, compact disks (audio-video), optical disks, computing couplers (data processing), diskettes, magnetic data carrier; computer hardware, namely video screens, scanners, printers, interfaces (data processing), readers (data processing), software (recorded programs), microprocessors, modems, monitors, computers, computer memories, computer peripherals; adapters for computers; components for computers; data processing equipment; data processing apparatus for data and information management; semiconductors; machine readable electronic media; magnetic disks; disk drives; tape recorders; calculating machines; cash registers; facsimile machines; video recorders; video tapes; electric batteries; computer chips; circuit boards; computer hardware, namely, communications computing servers; computer carrying cases; computer interface boards; computer cables and computer cable parts; computer fax modem cards; computer accessories, namely, screen filters, mouse pads, radio pagers, joysticks; power converters, namely, digital to analog, analog to digital and step-by-step voltage switches; computer mice; integrated circuit cards and smart cards; integrated circuit adapters and smart card adapters; readers for integrated circuit cards and smart cards; microcomputers; electrical power supplies; projectors; remote controls for computers; surge protectors and uninterruptible power supplies; point of sale terminals; computer servers; computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; recorded and downloadable computer programs and computer software; software video games; computing operating system software and programs; computer software used for accessing a global computer network; computer software used for document management; computer software used for data base management; computer software used for locating, retrieving and receiving text, electronic documents, graphics and audiovisual information on enterprise-wide internal computer networks and local and wide-area global computer networks; computer software used for software development and web authoring and user manuals in electronic format sold as a unit with these products; computer software for use in controlling the operation and execution of computer systems, programs, and networks; computer software for use in connecting disparate computer networks and systems, computer servers and storage devices; computer software for linking together computers and for enabling computing across a globally accessible network; computer software for managing hardware, software and processes that exist within an information technology environment; computer systems combining hardware and software for use in management and analysis of data and digital instructional manuals sold as a unit with these products; cloud computing system, namely network integrating computer hardware and software for dynamic provisioning, virtualization, and consumption metering of computer resources; recorded or downloadable cloud-computing software for deploying and managing virtual machines to a cloud computing platform; computer systems, namely, computer hardware and computer software for developing and integrating artificial intelligence, namely, machine learning, deep learning and natural language processing which is capable of collecting, organizing and analyzing data; computer systems, namely, computer hardware and computer software for integrating Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general human queries and formulating responses; computer software for developing, building and operating blockchain applications; computer hardware and computer software for developing and testing quantum algorithms; documentation and instruction manuals recorded on machine-readable electronic media and relating to computers or computer programs; electronic publications; electronic publications on computer media, namely, user manuals, guides, brochures, information sheets, written presentations and teaching materials, in the field of computer, computer network, computer storage, computer operating systems, information technology, database management, cloud computing, artificial intelligence, blockchain technology and quantum computing., (37) Building construction; computing installation and repair services; maintenance of computer hardware; computing assistance by programmers; Design, installation and maintenance of computer hardware for computer networks; technical support services, namely computer hardware problem solving. and (42) Computer programming;Software as a service (SaaS) services featuring software for data management;software as a service (SaaS) services featuring software for cloud computing;software as a service (SaaS) services featuring software for artificial intelligence;software as a service (SaaS) services featuring software for cognitive computing;software as a service (SaaS) services featuring software for blockchain technology;software as a service (SaaS) services featuring software for quantum computing and quantum programming;software as a service (SaaS) services featuring software for constructing, analyzing and running quantum programs and quantum algorithms;software as a service (SaaS) services featuring software for developing and testing quantum algorithms;computer programming services and computer consulting services on artificial intelligence;computer programming services and computer consulting services

on cognitive computing;computer programming services and computer consulting services on information management;computer programming services and computer consulting services on data management;computer programming services and computer consulting services on cloud computing;computer programming services and computer consulting services on blockchain technology;computer programming services and computer consulting services on quantum computing;computer programming services and computer consulting services on software as a service (SaaS);design, installation, updating and maintenance of computer software;computer software and hardware design for others, and consultation services in the field of computers;computer services, namely, designing, creating and maintaining web sites for others;computer systems analysis, data base and network integration, computer programming for others all for use in commercial interactions over global computer networks;technical support services, namely, troubleshooting of computer programs and software problems;design of systems for interconnection of computer hardware and software, namely, electronic connection of computers and software to each others;computer software and hardware testing services (quality and technical controls);technical project studies in the field of computer hardware and software;consultancy services in the field of computer hardware, namely consultancy regarding computing research and development;advice and consulting services relating to use of internet;rental of computers and computer software;scientific and industrial research, namely research and development of new products, biological research, research in bacteriology, research in chemistry, research in beauty care, research in mechanics, geological research , technical research, pharmaceutical research, scientific research for medical purpose;information technology services;computer systems integrations services;consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others;technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and computer software problems;computer systems design services for others;interconnection of computer hardware and software, namely, integration of computer systems and networks;computer software and hardware testing services, namely, testing of computer software, computers and servers to assure proper functioning;cloud computing services, namely, network integrated computer hardware and software services for dynamic provisioning, virtualization, and consumption metering of computer resources;providing virtual computer systems and virtual computer environments through cloud computing;design and development of computer software for cloud storage of data;cloud hosting provider services;electronic data storage and data recovery services;data security services.
