electric control devices for energy management; electrical sockets; apparatus and instruments for recording, receiving, amplifying, transmitting, reproducing or processing sound, images or data; recorded and downloadable media, blank digital or analogue recording and storage media; computer peripheral devices; computer networking and data communication equipment; data-processing equipment; computers; laptops; tablets [computers]; scanners; printers; monitors; computer peripherals; data-processing apparatus and instruments; software applications; computer software and applications for mobile telephones and computers; displays; LCD displays; LED displays; interactive displays; digital signage displays; display devices; electronic interactive whiteboards; interactive touchscreen terminals; instrument clusters for use in vehicles namely electric and electronic control panels; passenger screens for use in vehicles; audiovisual entertainment systems and information systems for use in vehicles; telecommunication apparatus for sharing data and GPS locations; electronic control units (so-called ECU's); electronic control modules (so-called EMU's); electronic control units (so-called ECU's) and control modules (SO called EMU's) in particular for the automotive industry and means of transport; connected devices, namely onboard computers and computer hardware modules for vehicles that enable the vehicle to communicate with other devices and vehicles over a network, and computer hardware modules for use with the Internet of things (IoT), that can connect to other devices or networks via wired or wireless protocols; computer software and application software for connecting, operating, and managing networked devices, appliances, machinery and systems in the Internet of things (IoT); electronic apparatus incorporating artificial intelligence software; wireless controllers to monitor and control the functioning of other electronic devices; DC/DC converter; electronic currency converters; AC/DC converters; DC/AC converters; electric power units; on board chargers for use in vehicles backup batteries; backup batteries for the telecommunication sector; batteries for telecommunication energy infrastructure; batteries that have software or embedded system support software to monitor battery specifications and performance during operation; hybrid batteries that can be connected both solar photovoltaic and city grid; batteries that can compatibility working with alternative current electric vehicle chargers; hybrid batteries that can store generated energy from solar photovoltaic; batteries that have embedded software solutions for use with the Internet of things (IoT) with the purpose of measuring use of energy and billing the costs of the energy used; all in one batteries systems that have power conversion system, air cooling heating, ventilating and air conditioning system, static transfer switches, and maximum power point tracking; battery systems with embedded software and hardware modules for the usage of arbitrage, backup, peak shaving and micro building applications; containerized energy storage systems; battery systems that have liquid cooling system; battery systems that can be integrated with renewable sources such as, solar plants, wind plants; battery systems that can be integrated with transmission and distribution of city grid; downloadable software for management, monitoring, analysis and maintenance of batteries of electric bikes; downloadable software providing real time status of batteries of electric bikes; downloadable software for providing status of batteries of electric bikes to

third parties via telecommunication networks; battery chargers for use with electric bikes; batteries for electric bikes; television and radio apparatus and instruments; televisions; satellite receivers; digital satellite receivers; digital terrestrial receivers; record players; compact disc players; tape recorders; cassette players; video recorders; DVD (digital video disc) players, receivers and recorders; DVB (digital video broadcasting) players, receivers and recorders; set-top boxes; batteries; electric cables and wires; telecommunication apparatus and instruments; telephones; battery chargers for use with telephones; mobile telecommunication apparatus; mobile telephones; battery chargers for use with mobile telephones; electric cleaning apparatus (not included in other classes); electronic cleaning apparatus for magnetic and optical data media; bathroom scales; kitchen scales; thermostats; thermometers for ovens; timers for automatic apparatus; electric timers; remote control apparatus; charging apparatus; charging apparatus for electric vehicles; charging stations for electric vehicles; energy transforming apparatus; computer e-commerce software to allow users to conduct electronic business transactions in online marketplaces via a global computer network; debit cards (encoded or magnetic); encoded or magnetic cards, including credit cards and debit cards; payment cards (encoded or magnetic); cards for use in connection with sales and promotional incentive and loyalty schemes and promotional services; payment terminals., (11) Apparatus for heating, cooling, water supply and ventilating; refrigerating devices and freezing devices; refrigerators; freezer cabinets and freezer chests and fridge-freezer combinations; deep freezers; ice cream making machines; wine refrigerators; drying apparatus; tumble dryers; laundry dryers; electric extractor filters and extractor hoods; cooker hoods; exhaust hoods for kitchens; extractor hoods for kitchens; household and kitchen apparatus, instruments and installations for baking, roasting, cooking and/or heating food and beverages; cookers; kitchen stoves; cooking appliances; cooking plates; frying apparatus; roasting apparatus; grilling apparatus; toasting apparatus; defrosting apparatus and warming equipment; microwave ovens (cooking apparatus), ovens and combination microwaves; electric pressure cookers; immersion heaters; bread toasters and sandwich toasters; electric apparatus for the preparation of hot and cold drinks; electric coffee machines; electric espresso coffee machines; electric coffee percolators; electric tea machines; electric tea makers; electric samovars; apparatus for heating milk; milk coolers; apparatus for making foam while heating milk; electric egg cookers and boilers for household use; electric appliances for making yoghurt; hobs; air fryers; electric cooktops; electric cooking steamer; electric slow cookers; electric bread-making machines; automatic bread-making machines for household purposes; electric toasters; electric heating and cooling apparatus for dispensing hot and cold beverages; water heaters; water heaters for household use; electric kettles; electric ice-makers; lamps; lights; infrared lamps; mirror reflectors for lighting apparatus; light diffusing apparatus; solar light; solar lamps; led lamps; led lighting apparatus; luminaries; steam-generating apparatus; apparatus for steam generating; air conditioning installations; water supply installations; water dispensers; electric and electronic apparatus and installations for water purification and water treatment; boilers; electrical water boilers; hot water boilers; water treatment boilers; humidifiers; water coolers and heaters; ventilation installations and systems consisting of ventilation installations for buildings; ventilation apparatus; ventilators; heating apparatus; air-conditioning apparatus; heating units; apparatus for improving air quality; air filtering installations; fans; personal heating and drying implements; sun tanning appliances; heating cushions and electric blankets not for medical use; appliances for bathing the feet; storage units specially adapted for thermal energy and heat accumulators; heat pumps; solar thermal collectors for heating; solar thermal collectors for heat generation; solar energy powered heating installations; solar energy powered ventilation apparatus; solar heating panels; regenerative heat generators; residential heat pumps; storage water heaters; thermosiphon installations; thermosiphon boilers; water heaters used also as heating system, thermosiphon, namely refers to a method of passive heat exchange based on natural convection which circulates liquid in a vertical closed-loop circuit without requiring a conventional pump. and (35) Advertising; business management; business administration; business consultancy; office functions; demonstration of goods; sales promotion for others; presentation of goods on communication media, for retail purposes;
